MENA CRUSHED AGGREGATES PRODUCTS

At Mena Granite, we are committed to delivering impeccable quality that exceeds our customers' expectations. We understand that each project is unique, which is why we work closely with our clients to deliver customized granite solutions that perfectly fit their needs. From selecting the best raw materials to expertly crafting the final product, we follow a meticulous process that ensures quality and reliability at every step.

We use the most advanced technology and modern equipment to extract, cut, and polish our granite to perfection.

Our skilled team of craftsmen has years of experience working with granite and has an eye for detail that guarantees the highest quality finish.

Our commitment to quality extends beyond our products, as we place a strong emphasis on customer satisfaction. We strive to build long-term relationships with our clients by providing excellent customer service and support, from the initial consultation to the final installation.

We operate a Crushing and Screening Plant for a variety of Aggregate Stones. Our Crushing and Screening Plant is Located 50km's outside Kampala City in Uganda

We Supply and Distribute our Crushed Aggregates in Kampala City and throughout the Central Region of Uganda
